Purpose of Prarambh

India's first legaltech incubator was launched in February, 2019 by Cyril Amarchand Mangaldas (**cam**). Prarambh aims to work with young entrepreneurs developing new technology based solutions for the legal industry. This includes solutions related to

- ▮ Access to Justice
- ▮ Dispute Resolution
- ▮ Transaction Efficiencies
- ▮ Law Firm Operations
- ▮ Legal Research
- ▮ Compliance
- ▮ Contract Management
- ▮ Managing Legal Talent
- ▮ Others

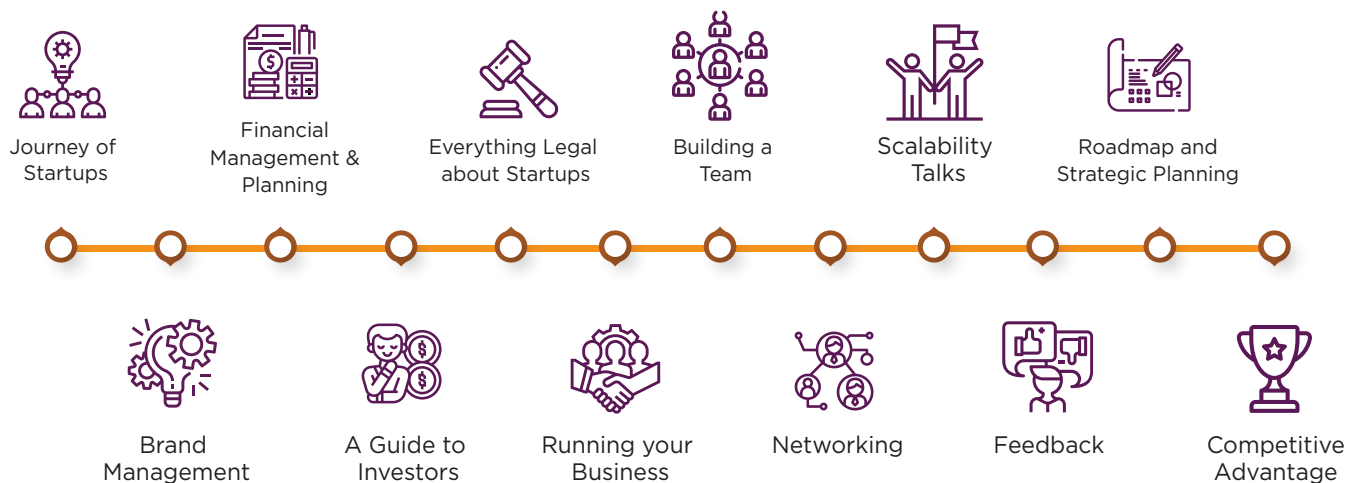

During our ongoing exploration, we found that a great deal of legal technology being used by firms in other international jurisdictions is not fully adapted to suit the Indian legal market. There is a “requirements gap” that we seek to fill with Prarambh.

We are proud to provide the appropriate infrastructure, subject matter expertise, and mentorship required to help place India on the map as a world leader in legal technology design and development.

"The idea of providing a common platform and equal opportunity for internships was the driving force behind creating JRTC Intern. The platform needed to comply with the legal regulatory policies which we looked forward for expertise in. After a month at Prarambh, we have been able to comply with the legal & regulatory irregularities and create a well thought of wireframe of the product after multiple discussions with the mentors. We aim to successfully launch the product at the end of six months at Prarambh."
